

Alliance for IoT  
and Edge Computing  
Innovation

# **AIOTI Webinar:**

## Presenting Open Call Opportunities

07.06.2023

# Agenda

- **15.00 Opening and Welcome, survey launch (5 min)** - *Mayte Carracedo, AIOTI TF EIC Chair*
- **15.05 Open Call Opportunities (10 min)** - *Mayte Carracedo, AIOTI TF EIC Chair*
  - **EURobin and TArget X** - *Aneta Galazka, Fundingbox*
  - **NGI Search** - *Marie Claire Tonna, FundingBox*
  - **NGI Sargasso** - *Raquel Carro, Australo*
- **15.15 Questions from the audience (10 min)**
- **15.25 EU CEI Open Call Opportunities (10 min)** - *Brendan Rowan, AIOTI TF EIC co-chair*
  - **ICOS** - *Elena Japundžić, FundingBox*
  - **NEMO** - *Harry Skianis, Synelixis*
  - **AerOS** - *Ignacio Lacalle, UPV*
  - **NebulOuS** - *Ana Luísa Alves, F6S*
  - **FLUIDOS** - *Alessio Sacco, Polit*
  - **NEPHELE** - *Diana Järve, FundingBox*
- **15.40 Questions from the audience (10 min)**
- **15.50 Commenting the survey, Wrap up and end of Webinar (5 min)** - *Brendan Rowan, AIOTI TF EIC co-chair*

# Housekeeping Rules

- This webinar will be recorded.
- All participants are required to use their real names and surnames.
- Please do not unmute yourself and do not ask questions during the presentations, use the reserved Q&A slots.

# Early Innovation Champions Survey

Take the survey!

## What do we offer?

The exact amount of financial support to be granted to each selected third-party project under the Open Calls is up to **€ 60 000**. Participants will have the possibility to integrate and test their code, method or hardware in some of the most advanced robotic platforms in Europe to address significant research challenges thanks to the cascade funding mechanism that will support their work.

Researchers from organisations such as research groups and institutions, or companies of any size (which will be the formal entities receiving the grant) will join some of the euROBIN core teams, integrating and evaluating the developed solutions of the robots at the hosting labs. Two euROBIN partners will typically act as host institutions for the stays, providing access and support to the euROBIN robot platforms.

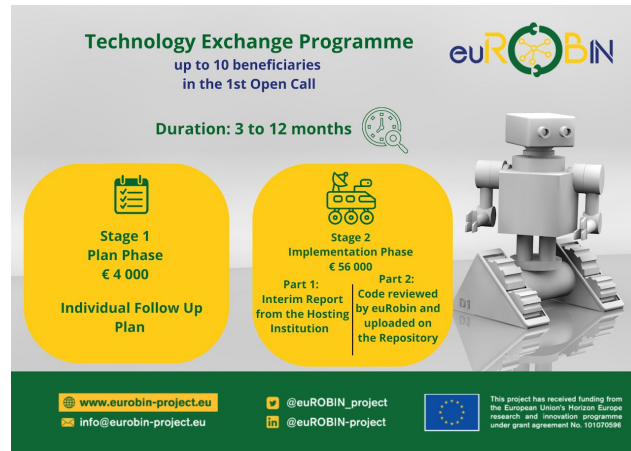

## Who are we looking for?

We are looking for a **single (individual) applicant** (not consortia) who is:

- Company of any size registered before the launch of the Open Call
- Research Organisation
- an Academia Research Institution registered before the launch of the Call.

## What do we offer?

A flyer for the Technology Exchange Programme. At the top, it says 'Technology Exchange Programme up to 10 beneficiaries in the 1st Open Call' and 'Duration: 3 to 12 months'. Below this are two yellow rounded rectangles. The first is 'Stage 1 Plan Phase € 4 000 Individual Follow Up Plan'. The second is 'Stage 2 Implementation Phase € 56 000' with 'Part 1: Interim Report from the Hosting Institution' and 'Part 2: Code reviewed by euRobin and uploaded on the Repository'. A 3D robot icon is on the right. At the bottom, there are contact details: 'www.eurobin-project.eu', 'info@eurobin-project.eu', '@euROBIN\_project', and '@euROBIN-project'. A small European Union flag and a funding note are also present.

**Technology Exchange Programme**  
up to 10 beneficiaries  
in the 1st Open Call

**Duration: 3 to 12 months**

**Stage 1**  
Plan Phase  
€ 4 000  
Individual Follow Up  
Plan

**Stage 2**  
Implementation Phase  
€ 56 000

Part 1:  
Interim Report  
from the Hosting  
Institution

Part 2:  
Code reviewed  
by euRobin and  
uploaded on  
the Repository

[info@eurobin-project.eu](mailto:info@eurobin-project.eu)  
@euROBIN\_project  
@euROBIN-project

This project has received funding from the European Union's Horizon Europe research and innovation programme under grant agreement No. 101070596

Information available at:  
<https://eurobin-project.fundingbox.com/>

# VISION

TARGET-X 's Vision is to strengthen important economic sectors in Europe by integrating 5G and 6G, accelerating the digital transformation.

# VERTICALS

The proposed activities must address Performance testing or the development of devices or solutions oriented to technology providers and use cases applicable **to only one topic** in one of the following verticals:

MANUFACTURING

ENERGY

AUTOMOTIVE

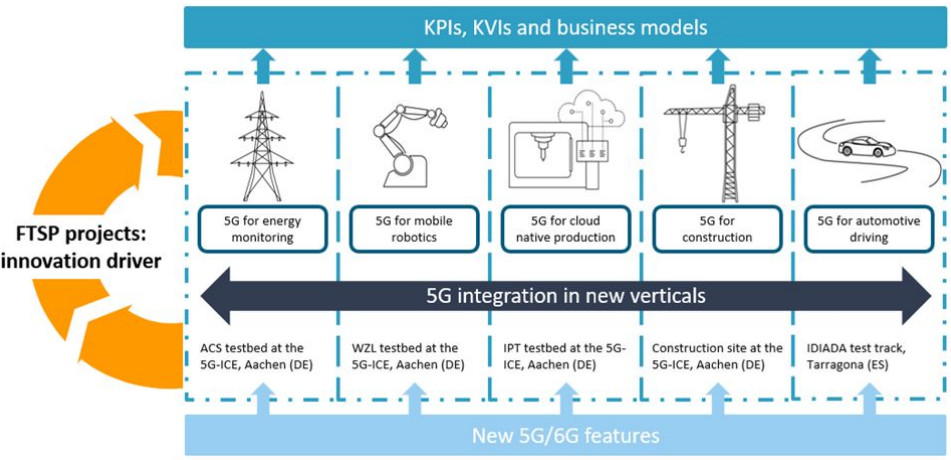

CONSTRUCTION

# Who are we looking for?

We are looking for an individual entity (SME) or micro-consortium composed of 2 SMEs, registered prior to the launch of the TARGET-X 1st Open Call.

# What do we offer?

- financial support to be granted to each selected entity under the 1st TARGET-X Open Call is a fixed lump sum of up to **€60 000** per entity.
- **NOTE!** In case of for-profit companies maximum grant amount is 70% of the eligible costs needed to execute the project.
- During the 1st Open Call approximately 50 entities will be selected.

Information available at:  
<https://target-x.fundingbox.com/>

**1st Open Call Deadline 26th of July, 5PM (CEST TIME)**

**Theme:** Search and discovery on the internet with a focus on trust, privacy and transparency.

**Scope:** 5 Open Calls to find and select talented researchers, innovators and activists working in this theme.

**Topics:** Generative AI detection tools, Addressing gaps in Large Language Models, Federated Search on the Internet, Search and discovery technologies for the arts, Enabling new ways of discovering and accessing information & more.

## 3rd Open Call Details

**Funding:** Up to 150,000 EUR funding

**Type of applicants:** Including but not limited to Individuals, researchers, hackers, Startups, SMEs, Universities, NfP etc.

**What kind of support will be offered?** 12 months of technical and business mentorship

**Deadline:** Launches on 1st August and closes on 1st October 2023, 17:00 CET

**Contact for more information:** [nina@fundingbox.com](mailto:nina@fundingbox.com)

4.8M€ in funding for **transatlantic cooperation** in NGI Technologies

# APPLY TO THE NGI SARGASSO GENERAL OPEN CALL

FROM 1 JUNE TO 31 JULY 2023

[WWW.NGISARGASSO.EU](http://WWW.NGISARGASSO.EU)

Up to **100,000€ per project** (+90 to be funded)

## Eligible entities:

- Universities & Research centers
- SMEs & Startups
- NGOs & Foundations

**Teams** composition: **1 EU** partner + **USA or Canada** partner

## KNOWLEDGE AREAS:

## HOW TO APPLY:

**STEP 1**  Find your EU or Canada partner through our **BROKERAGE** service.

**STEP 2**  Write your joint proposal

**STEP 3**  Submit your application before July 31st 17:00 CEST!

More info at [ngi.sargasso.eu](http://ngi.sargasso.eu) > Apply Now!

Contact [helpdesk@ngisargasso.eu](mailto:helpdesk@ngisargasso.eu)

Funded by  
the European Union

4.8M€ in funding for **transatlantic cooperation** in NGI Technologies

# APPLY TO THE NGI SARGASSO CANADA COLLABORATIVE OPEN CALL IN DIGITAL CREDENTIALS

FROM 1 JUNE TO 31 JULY 2023

Up to **100,000€ per project**

## Eligible entities:

- Universities & Research centers
- SMEs & Startups
- NGOs & Foundations

## Teams composition:

- **1 EU** partner + **Canada** partner
- NGI Sargasso will facilitate the pairings

## TARGET AREAS:

## HOW TO APPLY:

STEP 1

Write your proposal

STEP 2

Submit your application before July 31st 17:00 CEST!

More info at [ngi.sargasso.eu](https://ngi.sargasso.eu) > Apply Now!

Funded by  
the European Union

**NGI** SARGASSO

# Q&A

**Funding:**

Up to €200k per consortium (€150k + €50k for a consortium); 5 projects to be awarded

**Type of applicants:**

Consortia of 2 SMEs and mid-caps (1 tech provider, 1 end user)

**Supported activities:**

ICOS solution development project

**Expected start/end:**

1 August/ 2 October 2023

**What kind of support will be offered?**

Support programme - 12 months

**Information available at:**

<https://www.icos-project.eu/>

**Technology:** Cloud computing, edge computing, meta operating system, orchestration

**FundingBox**

#FundingChampions

# 1st Open Call

Who are we looking for? What types of activities can be funded?

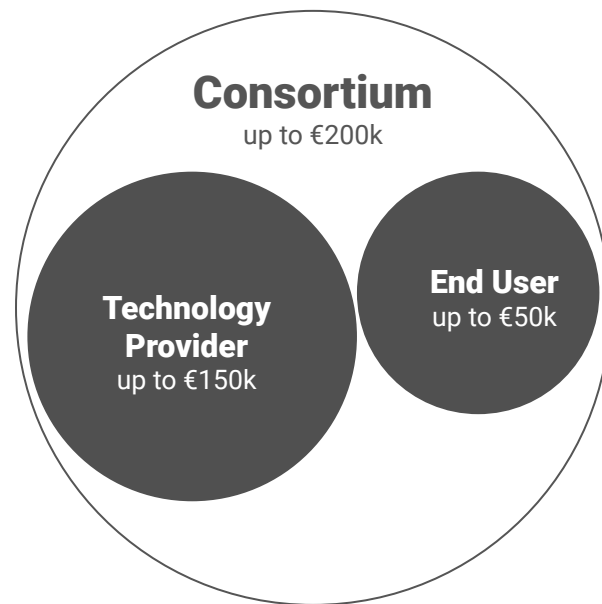

## Who are we looking for?

**Technology Provider** is any entity that is an IoT infrastructure provider, who is providing the infrastructure that will be **deployed across the ICOS continuum**.

**End User** is an entity that will be the end user of the deployed application.

## What types of activities can be funded?

1. **Development of the proposed services;**
2. **Development of the original service**
  - within an application area that is different from the project's use cases, based on the project objectives, reference architecture and components already under development

# NEMO

## NExt Generation Meta Operating System

# OPEN CALLS OVERVIEW

**AIOTI webinar: presenting Open Call  
Opportunities**

*Online, 7 June 2023*

**Harry Skianis, PhD**

*TM, Synelixis Solutions SA*

*NEMO receives funding from the EU Horizon Europe research and innovation Programme under Grant Agreement No. 101070118*

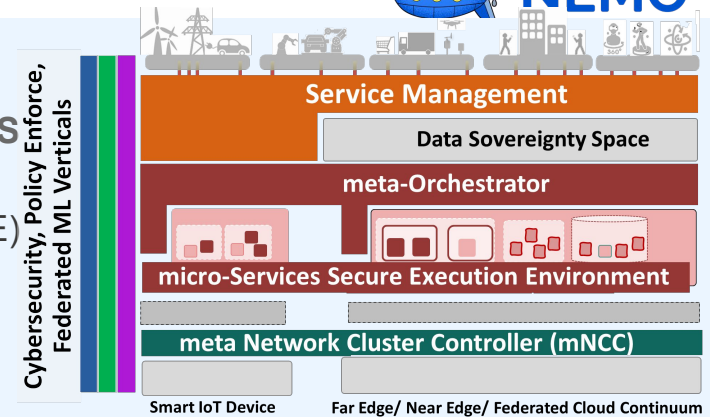

# NEMO: Next Generation Meta Operating System

## 1) Technological Innovations

- ✓ Full stack, fully configurable, cloud-native, data aware meta-OS
- ✓ *Bring intelligence closer to data/make AI integral part of meta-OS*
  - Self-Organized/Healing Network Clusters/5G/6G Integration
  - Cybersecure micro-Service Secure Execution Environment (mSEE)
  - SLO/EE based self-optimized meta-Orchestrator
  - ZeroOps Plug-in mechanism
- ✓ **Cybersecurity, Privacy Compliance & Federated ML verticals**

## 2) Strengthening the EU competitiveness

- ✓ Fully compatible with DataSpace evolution/standards
- ✓ Pre-commercial exploitation components (MOCA)
- ✓ FAIR datasets/Smart-X Labs (Farm, Energy, Mobility, Industry, Media)
- ✓ *Widespread penetration / Open X Access, Source, Standards, Calls*
- ✓ 1.8M€ for testing and adoption via 2 Open Calls

## 3) Expected (Technical, Economical, Environmental, Social) Impact

- ✓ Novel components, tools, methods
- ✓ Dataspace & IoT-Edge continuum integration in reality
- ✓ New paradigms in Smart-X Apps delivery
- ✓ Push processing to cloud => directly reduce CO2
- ✓ Smart Agriculture: reduce pesticides/spraying/soil erosion....
- ✓ Closing the digital gap by enabling Smart-X Edge processing
- ✓ Reinforcing competitiveness via open-source & Open Calls

### Open Calls overview:

Number of Open Calls: 2

1<sup>st</sup> Open Call

Open Date: September 2023

Close Date: December 2023

Start Date : April 2024

### 1st Open Call

#### Type of actions funded:

- ☐ NEMO meta-architecture extensions
- ☐ software components/plugins not covered by current NEMO implementation plan
- ☐ Network/service/resources metering/automated control components
- ☐ Port NEMO on new, heterogeneous IoT devices

#### Average Value:

150 KEuros

#### Eligible organisations:

software developing, edge cloud, telcos and IoT manufacturers SMEs

#### Average duration:

18 Months

#### Open Call Coordinator contact:

Harry Skianis

[cskianis@synelixis.com](mailto:cskianis@synelixis.com)

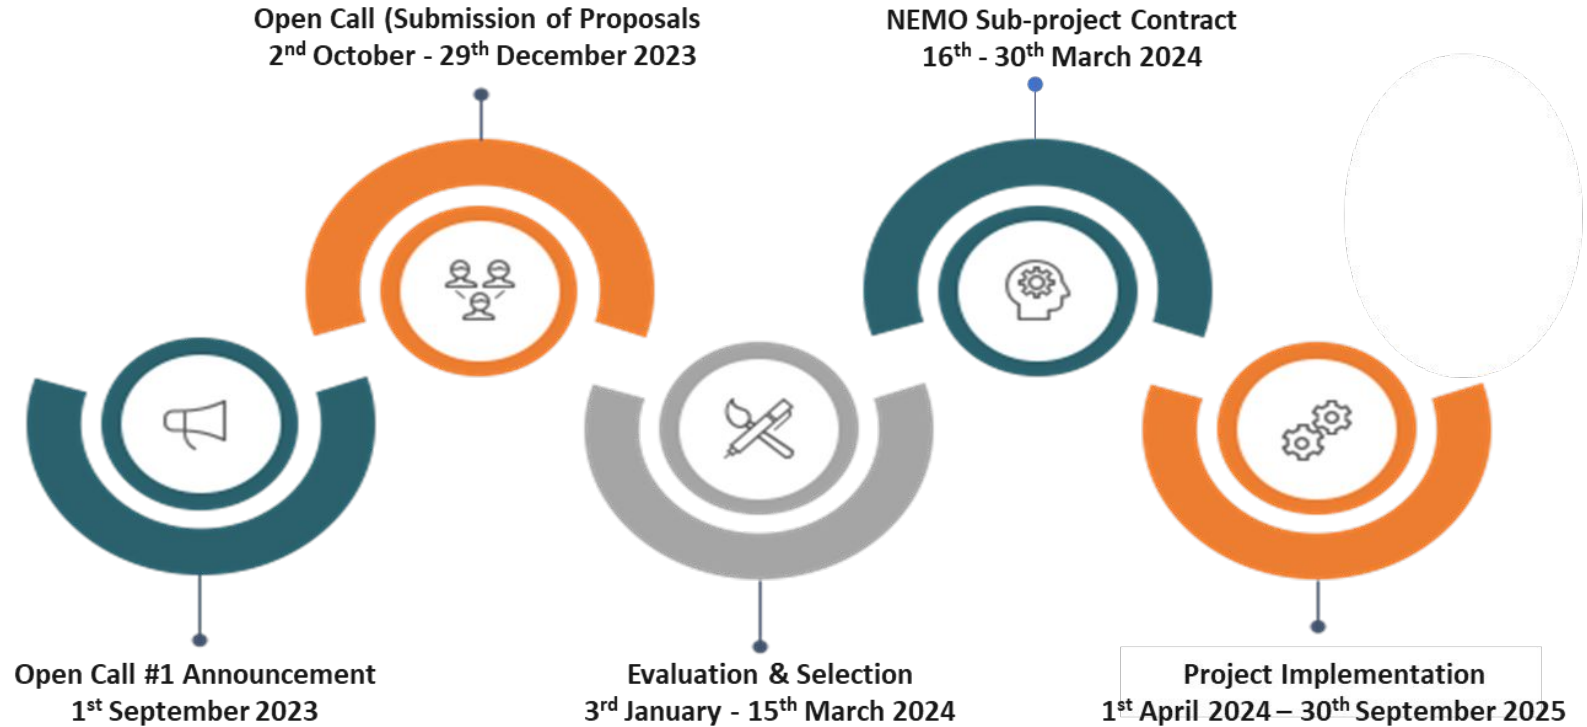

Dimitrios Skias

[Dimitrios.Skias@netcompany-intrasoft.com](mailto:Dimitrios.Skias@netcompany-intrasoft.com)

#### Number of grants awarded:

6

# 1st Open Call Timeline

### Open Calls overview:

Number of Open Calls: 2

2<sup>nd</sup> Open Call

Open Date: June 2024

Close Date: September 2024

Start Date : December 2024

### 2nd Open Call

#### Type of actions funded:

- NEMO use cases extension
- IoT/Edge apps and services that use heterogeneous IoT and NEMO components towards new services

#### Average Value:

90 KEuros

#### Eligible organisations:

IoT/Edge applications/service developers

#### Average duration:

9 Months

#### Open Call Coordinator contact:

Harry Skianis

[cskianis@synelixis.com](mailto:cskianis@synelixis.com)

Dimitrios Skias

[Dimitrios.Skias@netcompany-intrasoft.com](mailto:Dimitrios.Skias@netcompany-intrasoft.com)

#### Number of grants awarded:

10

More info available on our website  
by September 2023

**Thank you for your attention!**

Harry Skianis, SYNELIXIS

[cskianis@synelixis.com](mailto:cskianis@synelixis.com)

- **Two** open calls to be conducted

	1 <sup>st</sup> Open Call Schedule		2 <sup>nd</sup> Open Call Schedule		
Sept-23	Announcement	M13	Announcement	M20	Apr-24
Oct-23 to Jan-24	Submission Phase	M14-M17	Submission Phase	M21-M24	May-24 to Aug.-24
Feb-24 to Mar-24	Evaluation Phase	M18-M19	Evaluation Phase	M25-M26	Sep-24 to Oct-24
Apr-24	Start Participation	M20	Start Participation	M27	Nov-24
Nov-24	End Participation	M27	End Participation	M34	Jun-25

- A total of **900k€** will be distributed to external third parties.
- Expected ~15 contributions (max.7 in the first, and min. 8 in the second) will be selected.
- Each open call will be funded with a fixed amount of **60k€**.
- Each open call funded proposal will have to focus **on one out of the three pilots.**

## What's the focus of each round?

Round  
#1

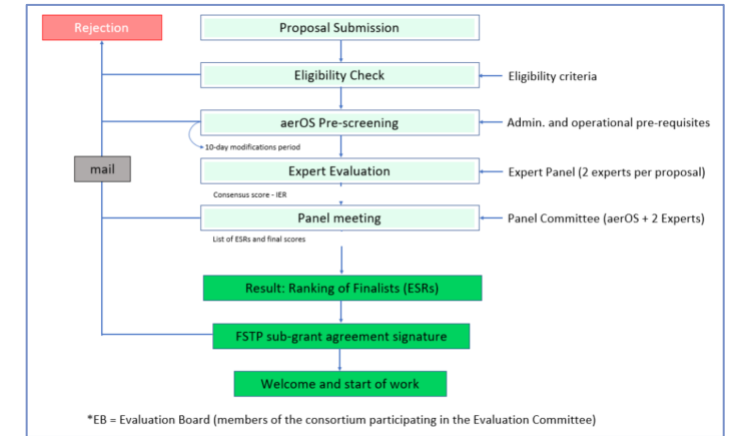

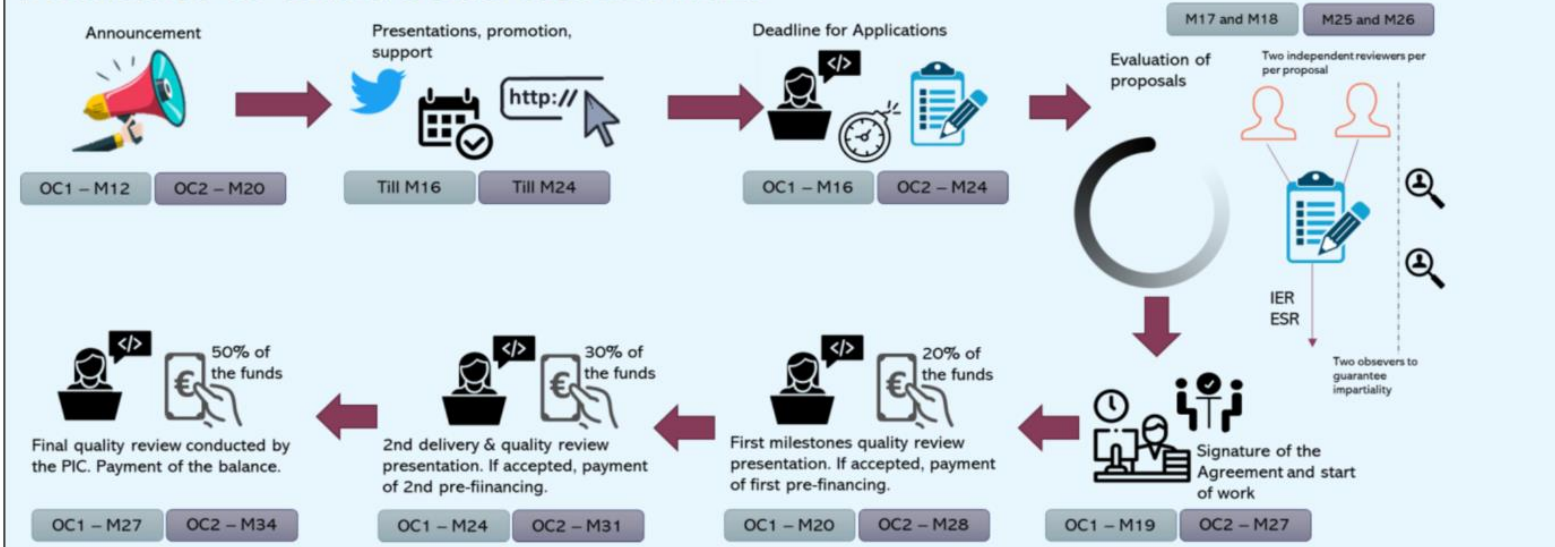

(1) extension of functionalities delivered by aerOS, (2) expansion of application of aerOS in the five use case verticals considered in the project

Round  
#2

(3) application of aerOS to verticals outside of these considered in the project

## SUMMARY OF TIMING AND PROCEDURE:

• Guidelines will be available on aerOS website by September 2023

### The proposers will have to:

- Be individuals, SMEs, Universities or Research Centres.
- Propose a project of 8 months (fixed duration).
- Prepare a proposal of max. 15 pages explaining the work to be contributed. The template will be prepared in the context of this task

### The evaluation criteria will be:

- Relevance to aerOS (min. 3 out of 5)
- Impact and sustainability (min. 4 out of 5)
- Technical Excellence (min. 4 out of 5)
- Quality of implementation (min. 4 out of 5)
- Quality of the team (min. 4 out of 5)

NebulOuS

# A META OPERATING SYSTEM FOR BROKERING HYPER-DISTRIBUTED APPLICATIONS ON CLOUD COMPUTING CONTINUUMS

## Main goals of the project

- Develop a Meta Operating System and a platform that enables transient fog brokerage ecosystems that can seamlessly exploit edge and fog nodes with multi-cloud resources while coping with low-latency applications.
- Manage the CEI continuum layers with a focus on efficiency and decentralised processing, with the development of interoperability capabilities and security guarantees necessary for the ecosystem.
- Use AI to strengthen its brokerage and orchestration processes, delivering a self-healing and self-managing continuum with the flexibility and stability to adapt to virtually any scenario or malfunction.

## Main outputs of the project

- NebulOuS Meta-OS platform.
- Semantic models for fog brokerage.
- Multi-Criteria Decision Making (MCDM) based cloud & fog service brokerage.
- Optimised application lifecycle Management.
- Autonomous and secure reconfiguration support.
- Distributed Event Management System (EMS) with automatic anomaly detection.

### Use Cases

Agriculture

Precision  
Agriculture

Transportation  
and Logistics

Supply of Fresh  
Food to a City

Energy and Utilities

Windmill  
Maintenance

Environment

Crisis  
Management

Smart City

Computer Vision for  
City Maintenance

Funded by  
the European Union

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or Directorate-General for Communications Networks, Content and Technology. Neither the European Union nor the granting authority can be held responsible for them.

NebulOuS

# GET INVOLVED! OPEN CALL OPPORTUNITIES

*NebulOuS FSTP action aims to fund 9 projects, up to €150K each and 6 months duration (Total of €1,35M)*

## 2 Open Calls

### 1<sup>ST</sup> OPEN CALL

**Type of Action:**  
Validation of basic aspects of the platform

An initial list of assets will be available for the launching of the 1<sup>st</sup> call

Open Date: **Jan 2024**  
Close Date: **Feb 2024**

### 2<sup>ND</sup> OPEN CALL

**Type of Action:**  
Validation of extended aspects of the platform

An updated list of assets will be available for the launching of the 2<sup>nd</sup> call

Open Date: **Sep 2024**  
Close Date: **Oct 2024**

## Eligible organisations:

1. Micro, small and medium-sized enterprises working on the IoT, Edge, Cloud or and other related technologies.
2. Research institutions, research infrastructures, non-profit organisations and charitable (scientific) foundations and public research centres, when supporting organisations of category 1 in a collaborative 3rd party project.

## Besides the equity-free funding up to €150K, the teams will benefit from:

- Direct support and guidance from a pool of mentors in the field for using and integrating NebulOuS components.
- Access to specialized and qualified resources.
- Designated mentor in implementation stage.

- More info** ✓ Latest updates here <https://www.nebulouscloud.eu/open-calls/>
- ✓ Open Call Coordinator contact [opencall@nebulouscloud.eu](mailto:opencall@nebulouscloud.eu)
- ✓ Apply via [F6S Platform](#)

# FLUIDOS Open Calls

## Two rounds

1<sup>st</sup> Call  
January 2024

2<sup>nd</sup> Call  
September 2024

SAVE THE DATES

	1 <sup>st</sup> Open Call	2 <sup>nd</sup> Open Call
Announcement	Jan 24 (M16)	Sep 24 (M24)
Evaluation Phase	Feb 24 – Mar 24	Oct 24 – Nov 24
Start Participation	May 24 (M20)	Jan 25 (M28)
End Participation	Jan 25 (M28)	Sep 25 (M36)
Funding	€ 75k	€ 120k

15 contributions in total!

# Two types of grants

## Technology Extension Grant (TEG):

MAXIMUM 5 applicants

ONLY in 1<sup>st</sup> Open Call

Individual applicant (i.e., no consortia)

TEG

propose and integrate new features in FluidOS and validate the resulting software in a new use case

## Use Case Grant (UCG)

MAXIMUM 10 applicants

5 in 1<sup>st</sup> Open Call

5 in 2<sup>nd</sup> Open Call

for both individual applicants

and small consortia (of at most 3 entities)

UCG

new demonstrators to validate the FluidOS architecture and software (no extension to FluidOS core modules)

## Who is this for?

individual researchers, developers, innovators from universities, research institutions, innovative companies

# Overview of the Open Calls

**Two open calls:** up to 16 participants

**Budget:** up to €1.5 M

**1<sup>st</sup> call:** develop Virtual Objects and IoT enablers

**2<sup>nd</sup> call:** validate the architectural approach & synergetic meta-orchestration framework

# 1st Open Call

## **Timeline:**

Open Call: October - November 2023

Evaluation period: December 2023 – February 2024

Support programme: March 2024 - August 2024

## **Funding:**

Up to €76k per beneficiary, 8 projects to be awarded

## **Supported activities:**

Development of Virtual Objects, Composite Virtual Objects (incl. the Digital Twin concept), and generic IoT enablers.

## **Eligible organisations:**

Individual industrial entities such as SMEs (incl. startups) and midcaps.

## **More info at:**
